

Features

- Multicable management solution for electrical application on ceiling and wall, requiring less space than cable trays.
- Quick and easy installation, just shoot with a nailer, install the cable and close it. Compatible with FORCE ONE+, FOX, and other nailers.
- Versatile. It can be installed with a nailer and also with standard systems like drilling or plug and screw up to Ø 4.5 m.
- Multicable. Designed to hold 15 and 30 cables (based on cable diameter 8 mm).
- Rust and corrosion resistance.
